Serving Industry Since 1915.

Get the Chatham Steel Edge

When your project requires processed metal products, Chatham Steel Corporation is ready with the expertise, technology, inventory and service to make everything run smoothly from procurement through delivery. We have been serving our customers with a dedication to excellence since 1915 and are a leader in providing the highest quality products and processing to a broad range of industries. From our extensive product inventories to our ability to provide customized processing, we support our customers with a foundation of strength.

Exceptional service

Services such as just-in-time delivery help keep your costs down, improving your return on investment. And, with our comprehensive processing services, we help your operation stay lean while increasing your throughput.

State-of-the-art technology

Chatham Steel continually invests in its facilities, state-of-the-art processing equipment and information systems. In the hands of our skilled and innovative team, these tools, resources and diverse processing capabilities allow us to meet your specific project or component requirements with accuracy and timeliness.

Industry expertise

More than 3,000 customers depend on us to meet their needs with an unparalleled level of expertise and reliability. We provide high quality products and services to a wide variety of markets, including manufacturing, structural and miscellaneous fabrication, maintenance and repair, transportation equipment and more.

Processing Capabilities

STRUCTURAL
