**Serving Industry Since 1915.**

# Get the Chatham Steel Edge

When your manufacturing operation requires stock or processed metal, Chatham Steel Corporation is ready with service expertise, technology, and inventory, reducing your overall costs. We have been serving our customers with a dedication to excellence since 1915 and are a leader in providing top quality products and processing to a broad range of industries. Today, Chatham Steel is part of the Reliance Steel & Aluminum family of companies, with extensive resources which further enhances our market leadership. From our extensive product inventories to our ability to provide customized processing, we back our customers with a foundation of strength.

## Exceptional service

Services such as just-in-time delivery help keep your costs down, improving your return on investment. And, with our comprehensive processing services, we help your operation stay lean.

## Proven quality

We have over 95 years of experience of supplying manufacturers with top quality products and processed parts. Our facilities are ISO 9001:2008 certified, with parts processing that is performed through an ISO quality system. You can be confident the parts and materials we supply will enhance the value of your finished product.

## State-of-the-art technology

Chatham Steel continually invests in its facilities, state-of-the-art processing equipment and information systems. In the hands of our skilled and innovative team, these tools, resources and diverse processing capabilities allow us to meet your job's specifications with accuracy and timeliness.

## Industry expertise

More than 3,000 customers count on us to meet their needs with an unparalleled level of expertise and reliability. We provide high quality products and services to a wide variety of markets, including manufacturing, structural and miscellaneous fabrication, maintenance and repair, transportation equipment and more.

And, for your marine manufacturing needs, we are certified by the American Bureau of Shipping.
